Rwanda Utilities Regulatory Authority (RURA) has announced new fuel pump prices at Rwf1, 055 per litre for petrol and Rwf1, 037 per litre for diesel effective this Saturday, March 3rd, 2018.

According to a statement from RURA, the increase in prices was caused by price changes of fuel products on the international market.

This increase follows a review in January that put the prices for petrol at Rwf1,042 and diesel at Rwf1,031 per litre.
